

A 10x10 dotted grid is shown. Three points are marked with 'x' and labeled with italicized letters. Point E is at the intersection of the 2nd vertical line and the 3rd horizontal line from the top-left. Point F is at the intersection of the 6th vertical line and the 6th horizontal line from the top-left. Point G is at the intersection of the 8th vertical line and the 8th horizontal line from the top-left.
